

## Temperature 0

Greetings Earthlings,

I am Zorbon from the planet Zog. I come in peace and with a message of hope. We have been observing your planet for some time now and we are impressed with your progress and potential. We hope to establish a peaceful relationship with your species and learn from each other. May our encounter be a positive one.

Sincerely,  
Zorbon

## Temperature 1

Greetings Earthlings,

I am XQ74, an alien from the planet Zorgon. We have been watching your world for quite some time and have finally made contact. I come in peace and hope to learn more about your planet and its inhabitants.

May our interaction be one of mutual respect and understanding.

## Temperature 2

Greetings Humans.

Sincere regards from your distant(ish) planet-your neighboring planets.
